Deleting a coach recommendation

- ❑ After following the instructions on the previous page, click the small X next to any recommendation to delete it.

Students can also delete recommendations you've given them. In this case, you'll see a notification on the Student Progress report.

The screenshot shows a navigation bar with the following items: Skills, Recommendations (highlighted with a mouse cursor), Videos, Badges, Activity, and Focus. Below the navigation bar, there are two notification boxes. The first box is light red and contains the text "Isaac at KA has **declined** these recommendations:" followed by two blue links: "Dismiss all" and "Recommend again". The second box is light grey and contains the text "Evaluating expressions in 2 variables" followed by two blue links: "Dismiss" and "Recommend again".

If you want to delete the same recommendation for several students, it may be easier to ask your students to remove the recommendation themselves.
